

The Dance Dynamics Collaborative

The Dance Dynamics Collaborative is a group of artists of all ages that unites to create & perform pieces for performances as well as competitions. We choose this art form as a way of self-expression and to communicate our emotions, values, and beliefs. We pay respect to those who danced before us and hope to be an inspiration to future performers. We have passion for what we love and pride in what we do. To dance is to breath and to breath is to live.

Let our movement move you...
